1. Purpose of the Request for Proposal (RFP)

The **Ministry of Digital Economy and Entrepreneurship (MODEE)** is soliciting proposals from **local qualified Internet Service Providers (ISPs)** to participate in a **five-years Open framework agreement** for providing comprehensive and reliable **Internet and connectivity services**, including **MPLS, 5G, Satellite Internet, an always-on Virtual Private Network (VPN), and any connectivity service available from the bidders** to connect various **government entities**, provided that the provided service is available in the three regions of the Hashemite Kingdom of Jordan (North, Central, and South).

This RFP aims to ensure **continuous, resilient, and high-speed internet and connectivity** across all designated government sites and locations, supporting operational efficiency, communication, and service delivery within the public sector. The selected bidder(s) will be responsible for delivering **end-to-end connectivity solutions** that meet defined performance standards with **guaranteed availability, redundancy, and security**, in accordance with **industry best practices and service level requirements**.

The **winning bidder(s)** shall be ultimately responsible for all **project management activities** related to the implementation and operation of the services, including **coordination with all concerned parties** within the scope of this RFP. The selected provider will play a **vital role in enabling secure remote access, efficient data transmission, and uninterrupted business operations**, thereby supporting MODEE's vision of **enhancing digital transformation, operational continuity, and service excellence** across the government ecosystem.

2. Project Definition and Overall Description

The **Project** aims to establish a unified, secure, and high-performance internet and connectivity framework to serve government entities across the Kingdom. This initiative, led by the **Ministry of Digital Economy and Entrepreneurship (MODEE)**, is part of the national effort to enhance digital infrastructure, improve service delivery, and ensure reliable access to online government platforms and applications.

The project encompasses the provision of multiple internet and connectivity technologies, including **MPLS, 5G, Satellite Internet, and an always-on Virtual Private Network (VPN)), and any connectivity service available from the bidders** to connect government entities . These solutions are intended to ensure **redundant, scalable, and continuous connectivity**, capable of supporting mission-critical systems, remote access, data exchange, and inter-agency communication.

The selected service provider(s) under this **five-years open framework agreement** will be responsible for delivering end-to-end connectivity services that meet the defined **technical, operational, and security standards**. This includes the **design, implementation, operation, and maintenance** of the required internet solutions, ensuring compliance with MODEE's policies and service-level objectives, posted on the MODEE website

The project is designed to achieve the following key objectives:

- Provide **reliable, high-speed, and secure** internet and connectivity to all participating government entities.
- Enhance **network resilience and redundancy** through the integration of multiple connectivity options.
- Support **digital transformation initiatives** by ensuring consistent and scalable connectivity across platforms and regions.
- Enable **secure all types of the VPN access** for government employees and systems, maintaining data confidentiality and integrity.
- Standardize internet and connectivity service procurement and management through a centralized and transparent framework managed by MODEE.

Ultimately, this project serves as a cornerstone in the Government of Jordan’s ongoing digital transformation journey, ensuring that all entities are equipped with the necessary infrastructure to deliver **efficient, accessible, and secure digital services** to citizens and businesses.

3. Scope of the project

3.1 Introduction

This section outlines the overall scope and key components of the project, defining the responsibilities, deliverables, and technical requirements expected from the Internet Service Provider(s). The project covers the **provision, implementation, and maintenance of comprehensive internet and connectivity solutions**—including **MPLS, 5G, Satellite Internet,), any connectivity service available from the bidders and an always-on Virtual Private Network (VPN)**—to ensure reliable, secure, and high-performance connectivity for all participating government entities.

The scope encompasses all activities required to **plan, deploy, operate, and support** the internet and connectivity services under a **five-years Open framework agreement**, in alignment with the **Ministry of Digital Economy and Entrepreneurship (MODEE)** standards, policies, and service-level objectives.

The selected bidder(s) will be required to provide **end-to-end solutions**, including but not limited to **network design, installation, configuration, testing, monitoring, incident management, performance reporting, and continuous technical support**. The implementation shall be executed in close coordination with MODEE and the respective government entities to ensure full operational readiness, interoperability, and compliance with cybersecurity Policy

3.2 Technical Scope

3.2.1 MPLS Specification:

#	Specification Item	Requirement / Description
1	Service Type	Managed and Unmanaged MPLS Connectivity Services
2	MPLS L2 L3 (Managed)	- Fully managed MPLS VPN service supporting both Layer 2 and Layer 3 connectivity. The service is operated and monitored by the provider, including maintenance, configuration, QoS/CoS management, and guaranteed SLA performance. - - speed of media is (100/200 /300/500/ 1000 Mbps) -
3	MPLS L2 ,L3 (Unmanaged)	- Unmanaged MPLS VPN service supporting Layer 2 and Layer 3 connectivity, where MODEE retains full control over routing, VLAN configurations, and internal policies. The provider ensures stable physical connectivity only. - - speed of media is (100/200 /300/500/ 1000 Mbps) -
4	MPLS L2 (Unmanaged)	- The link must be a trunk (Layer 2 VPN) service technology (Q-in-Q), MODEE team must has the ability to configure all needed VLANs on the link at both ends. - speed of media is (100/200 /300/500/ 1000 Mbps) - Type of service (Data)- to be configured as per the MODEE need

5	Access Type	Fiber(High Quality dedicated Point-to-Point (P2P) Fiber)or Microwave (Interference Protection, Higher Reliability, Regulatory Compliance, Better Capacity and Range, Secure),if not available the bidders shall specify the media of transmission
6	Minimum Speed	1 Mbps
7	Maximum Speed	MW: up to 3 Gbps / Fiber: up to 20 Gbps
8	Symmetry	Symmetric or asymmetric with guaranteed upload speeds
9	HQ Connectivity	To be decided by MODEE later
10	Hardware & Installation	Bidder must provide all required hardware, software, cables, power outlets, civil works, and installation
11	Additional Equipment	Bidder to supply any needed equipment needed for full functionality, even if not listed
12	Network Backbone	High-redundancy MPLS backbone with no single point of failure
13	Operations Center (NOC)	24x7 state-of-the-art NOC for monitoring, troubleshooting, and reporting
14	Helpdesk	24x7 Helpdesk facility for issue escalation and support
15	Monitoring Tool	Web-based platform for real-time link utilization, performance, and fault management
16	Scalability & Expansion	Support future increases in bandwidth, locations, and network reach
17	Security Features	Physical and logical isolation, routing table separation per VPN, password-controlled access
18	Service Level Agreement (SLA)	Minimum 99 % service availability (excluding Force Majeure)
19	Mean Time to Repair (MTTR)	As per the SLA
20	Class of Service (COS)	Support at least 5 priority levels for voice, video, and data
21	Network Redundancy	Dual-path routes
22	Monitoring & Reporting	Continuous performance monitoring, monthly SLA compliance reports

23	Compliance	Must comply with MODEE's and Cybersecurity policies
24	Restoration Time (Unmanaged MPLS)	As per the SLA
25	MPLS Protocols Support	Must support key MPLS protocols: LDP, RSVP-TE, MP-BGP, OSPF/IS-IS, VRF, and QoS.
26	Deliverables	Network design diagrams, installed CPEs, NOC access, SLA reports, routing policies, escalation matrix

Key Notes (Highlights & Critical Points)

- The MPLS solution must ensure **secure connectivity** between HQ and all branch sites.
- The **winning bidder** must provide a **fully functional turnkey solution**, covering all hardware, software, civil works, and installations.
- **Fiber or Microwave** are the transmission media, in case, fiber or microwave doesn't cover the area, copper may use as VPN over Copper or Copper over 4G/5G.
- **Redundant design** is mandatory for the MPLS — no single point of failure is allowed.
- **24x7 NOC and Helpdesk** must be available for real-time monitoring and support.
- The bidder must supply a **web-based monitoring tool** accessible by MODEE for live performance tracking.
- The **service must be scalable** — future upgrades (bandwidth/sites) shall be applicable should not require new interfaces.
- SLA must guarantee **99 % availability** with defined **MTTR** per site.
- The provider must support **voice, video, and data** traffic with **Quality of Service (QoS)** and **Class of Service (COS)** management.
- All services must comply with **MODEE's cybersecurity Policies**.
- The bidder must submit **escalation procedures** as part of the deliverables.

3.2.2 5G Internet Service

1. Service Description

The **5G Internet and connectivity Service** provides a **secure, fast, and scalable wireless connectivity solution** designed to support business operations with reliable broadband performance. This service ensures seamless access to the organization's intranet, business applications, and cloud-based systems while maintaining the highest levels of security and flexibility.

The 5G service also integrates with **VPN / Private VPN solutions** to ensure secure access to government systems.

2. Service Features

#	Feature	Description
1	High-Speed Fixed Wireless Internet	Delivers broadband connectivity with best-effort speeds depending on network sharing and plan selection.
2	Secure Access	Ensures private access to the organization's intranet, business applications, and cloud systems.
3	Plug-and-Play Installation	Quick and simple deployment without the need for extensive on-site setup or wiring.
5	Low Latency	Supports real-time applications such as VoIP, video conferencing, and cloud-based services.
6	Scalability	Service capacity and bandwidth can be upgraded based on business needs.
7	Software-Centric Design	5G network relies primarily on software for agility, flexibility, and fast updates.
8	Enhanced Security	Built-in network-level encryption, access control, and Private VPN support.
9	24/7 Support	Continuous monitoring and helpdesk support from the ISP's NOC.

3. Available 5G for Locations

Speeds are “best effort” because 5G is a shared wireless service. Exact throughput may vary depending on location, network load, and coverage.

4. SLA and Performance Guarantees

Parameter	KPI / Target
Service Availability	24x7
Latency	Low latency suitable for real-time applications.
Jitter / Packet Loss	Managed according to SLA standards.
Time to Restore (TTR)	As per the SLA – resolution time
Support	24x7 NOC & Helpdesk with proactive monitoring.

5. Equipment & Installation

Item	Responsibility
5G Router / CPE Device	Provided, installed, and maintained by the ISP
SIM / Access Device Configuration	Managed by the ISP
Power and Site Readiness	Coordinated with the customer
Installation Type	Plug-and-play or fixed CPE setup depending on signal quality

6. Key Notes

- 5G service is a **shared wireless solution**, so speed is **best-effort**.
- **Private VPN / VPN integration** is supported to secure business and government traffic.
- ISP must provide **real-time monitoring** and **monthly performance reports**.
- 5G must support **future scalability** for higher speeds, additional capacity, and integration with MPLS or hybrid networks.
- ISP is responsible for **security, monitoring, and maintenance** of the network and devices.

3.2.3 Satellite Internet Service / Satellite Connectivity Service

1. Service Description

The **Satellite Internet Service** provides **high-speed, reliable, and scalable internet connectivity** to business customers across the country, including **urban, rural, and remote areas**. This solution ensures continuity of operations for government entities and enterprises regardless of physical location.

The **average achievable download speed** across covered areas shall be **150 Mbps or more while the upload speed shall be not less than 20 Mbps**.

The bidder shall specify the down load capacity for the satellite internet service offers.

2. Service Features

#	Feature	Description
1	Wide Coverage	Satellite-based service ensures internet access in all regions of the Kingdom, including remote or underserved areas.
2	High Reliability	Consistent connectivity and performance, even during peak usage times.
3	Flexible Plans	Multiple packages available to meet varying bandwidth and budget requirements.

5	24/7 Support	Dedicated customer service for technical assistance, troubleshooting, and monitoring.
6	Plug-and-Play Installation	Simple deployment with minimal on-site setup.
7	Scalability	Download capacity can be upgraded or adjusted according to future requirements.

3. Available Satellite Internet Plans

Service Name	Download Speed (Mbps)	Upload Speed (Mbps)	Description
Satellite service	greater or equal to 150	not less than 20	High-performance plan for data-intensive operations or multiple users. Government entities

4. Service Level Agreement (SLA)

Parameter	KPI / Target
Service Availability	99% or as defined in vendor SLA
Latency	≤ 200 MS
Time to Restore (TTR)	Within SLA-defined hours for covered faults
Support	24x7 NOC & Helpdesk

5. Equipment & Installation

Item	Responsibility
Satellite Dish / Antenna	Provided, installed, and maintained by the ISP
CPE / Modem	Provided, installed, and maintained by the ISP
Power and Mounting	Customer must provide physical mounting location and power supply; ISP is responsible for installation
Configuration	Managed by ISP, plug-and-play setup, ready for immediate use

6. Key Notes

- Satellite internet ensures **connectivity in remote, rural, and urban locations**.
- Average speed across the network is **200 Mbps**, subject to coverage and network conditions.
- Service includes **dedicated support and monitoring** for SLA compliance.
- The vendor must provide **installation, configuration, and maintenance** of all required equipment.
- Service must be **scalable**, allowing upgrades to higher-speed plans or additional capacity.
- **24/7 Helpdesk and NOC support** must be included for troubleshooting and network monitoring.
- Pricing may be **adjusted under competitive RFP terms** at the discretion of the vendor.

3.2.4 All-Type VPN / Private VPN – Technical Specification

1. Service Description

The **All-Type VPN / Private VPN Service** provides **secure, continuous connectivity** for government and enterprise networks, ensuring safe access to intranet, business applications, and cloud services.

The service is **shared**, with bandwidth delivered on a **best-effort basis**, and is designed to integrate with existing **4G/5G, MPLS, and any other broadband networks**, providing reliable and private access across all covered areas.

2. Service Features

#	Feature	Description
1	Secure VPN Connectivity	Provides encrypted tunnels for secure transmission of business and government traffic.
2	Always-On Availability	Continuous 24x7 connectivity for uninterrupted access to critical systems.
3	Integration with Other Networks	Compatible with MPLS, 5G, fiber, and satellite networks.
4	Flexible Deployment	Can be deployed over wired or wireless networks (4G/5G) depending on site conditions.
5	Best-Effort Bandwidth	Speeds are shared; actual throughput depends on coverage and network conditions.
7	Monitoring & Reporting	Real-time monitoring and monthly SLA compliance reporting from ISP's NOC.
8	24/7 Support	Continuous NOC and Helpdesk support for troubleshooting and network management.

3. Technical Specifications

Item	Requirement / Description
Minimum Speed	Best-effort (shared service)
Maximum Speed	Best-effort (shared service)
Network Type	VPN / Private VPN over MPLS, 5G, or other broadband connections

4. Service Level Agreement (SLA)

Parameter	KPI / Target
Availability	24x7
Latency	Low latency suitable for VPN-based applications (per SLA)
Time to Restore (TTR)	Within SLA-defined hours for covered faults
Support	24x7 NOC & Helpdesk with proactive monitoring

5. Equipment & Installation

Item	Responsibility
VPN / Private VPN Gateways / CPE	Provided, installed, and maintained by ISP
Configuration	Managed by ISP with plug-and-play or pre-configured setup
Power & Site Readiness	Customer provides power and site location; ISP guides installation

6. Key Notes

- VPN / Private VPN provides **secure, always-on connectivity** across the organization.
- Bandwidth is **best-effort**, as this is a shared service.
- Service is integrated with **MPLS, 5G, and other broadband networks**, ensuring flexibility.
- ISP must provide **installation, configuration, maintenance**, and ongoing **network monitoring**.
- **24/7 NOC and Helpdesk** must be included for troubleshooting and SLA compliance.

3.2.5 4G SEMI CARD Service Specification

#	Specification Item	Description
1	Service Name	4G SIM Service
2	Service Description	Provides flexible, secure, and high-speed wireless connectivity for mobile and fixed users.
3	Technology	4G LTE or higher, compatible with standard mobile devices, dongles, and routers.
4	Speed	Best effort (shared Services)
5	Coverage	Data connection available across the entire mobile network and all designated 4G coverage areas nationwide .
6	Mobility	Ensures real mobility with constant, uninterrupted connectivity throughout the Kingdom.
7	Usage Features	- Access to emails, corporate intranet, and business applications.- Ability to send SMS and transfer files (including attachments) anytime and anywhere.- Internet browsing from any location with network coverage.
8	Installation	Plug and Play installation; no complex configuration required.

9	Security	Secure connection ensuring data privacy and protection during transmission.
10	Device Compatibility	Compatible with dongles, routers, tablets, and smartphones supporting 4G technology.
13	Support and Maintenance	24/7 technical support and service monitoring to ensure optimal performance.

3.3 Operational Scope

- The operational scope covers the ongoing management and support of the connectivity services, including:
- 24/7 network operations and monitoring, with proactive fault detection and resolution.
- Incident management and escalation procedures in line with defined Service Level Agreements (SLAs).
- Change management processes to ensure controlled updates and modifications to the network.
- Coordination with MODEE and government IT teams for service requests, maintenance activities, and troubleshooting.
- Regular maintenance and performance optimization of all provided infrastructure and connections.

3.4 Service Management and Reporting

The provider(s) shall establish a structured **service management framework** to ensure transparency, accountability, and continuous improvement. This includes:

- Assigning a **dedicated project manager and technical focal point** for coordination with MODEE.
- Submission of **periodic service performance reports**, including uptime, latency, incident logs, and SLA compliance
- Conducting **Monthly review quarterly meetings** with MODEE to evaluate performance, discuss challenges, and propose improvements.
- Ensuring **customer support channels** (helpdesk, ticketing system, and hotline) are available to address issues promptly.

3.5 Support and Maintenance

The selected provider(s) shall ensure comprehensive technical support and maintenance throughout the duration of the agreement, including:

- **Corrective maintenance** for all network components.
- **On-site and remote support** as required for fault resolution.
- The service provider shall manage on-site **spare parts and replace** defective components within agreed timeframes, coordinating directly with on-site liaison officers and without referring to the

Ministry of Digital Economy and Entrepreneurship (MoDEE), to ensure service continuity and timely incident response.

- **Continuous upgrades and updates** to maintain service quality and security standards.

3.6 Project Management and Coordination

The awarded provider(s) will be fully responsible for all **project management activities**, including coordination with MODEE, government entities, and third-party stakeholders. This includes:

- Developing and maintaining a **comprehensive project plan** outlining milestones, timelines, and deliverables.
- **Regular progress reporting** to MODEE's project management office.

4. Service Provider Responsibilities and Requirements

1. Installation and Operation

- The awarded bidder(s) shall handle the delivery, installation, and activation of the required internet / connectivity service for every government entity (site) as requested by the Ministry this shall be carried out by the provider's technical team, who must verify that the service is fully activated before leaving the site.
- The bidder must also provide **direct technical support** to each institution to ensure service continuity and prevent any interruptions.

2. Provision of Equipment (Modem/Router)

- The bidder shall provide a **the required modem and router** with every new subscription/ service.
- Equipment must be replaced **free of charge** in case of failure throughout the agreement period, in accordance with the **Service Level Agreement (SLA)**.
- The bidder must supply the **latest available devices** when replacement faulty items.

3. Equipment Replacement

- Replacement of faulty devices (modem or router) must be carried out **on-site**.

4. Static IP Addresses

- The bidder shall provide **static IP addresses** upon request; this shall be priced within the service list provided by the bidders.

5. Unlimited Internet Service (Except Satellite Service)

- All internet lines must provide **unlimited data usage**, without any caps or restrictions, and Download Capacity shall be determined.

6. Service Activation Timeline

The service delivery time shall be defined **per service type** and **based on the number of required connections (links)** as follows:

Service Type	Number of Links	Maximum Delivery Time
MPLS (L2/L3 Managed or Unmanaged)	1 – 10	Within 7 business days
	11 – 50	Within 15 business days
	51 – 100	Within 20 business days
	Above 100	As per mutually agreed project plan
5G / 4G (SEMI CARD)	1 – 20	Within 3 business days
	21 – 100	Within 7 business days
	Above 100	As per mutually agreed project plan
Satellite Services	All requests (a group of 10 sites)	Within 15 business days , depending on site readiness and satellite coverage

Notes:

- The delivery time starts from the date of official Purchase Order (PO) confirmation and site readiness.
- The provider must notify MODEE immediately in case of any expected delay, providing justification and revised delivery plan.
- Any delay beyond the agreed delivery time may subject the provider to penalties as defined in the SLA section.
- Delivery must occur **on-site at the government entity**.
- The bidder must complete the transfer of services from one site to another within 7 days.

7. Free Filtering Service

- Internet filtering must be provided **free of charge** for all subscriptions.

8. Site Connection and Setup

- Connection and setup must follow the list of sites provided by the **Ministry of Digital Economy and Entrepreneurship (MODEE)** to participating bidders under the framework agreement.

9. Change Requests Authorization

- No requests related to line operations (installation, disconnection, transfer, or speed upgrade) may be executed **without a formal request** from MODEE.

10. Cost Responsibilities

- All **installation**, Relocation of the service, **cancellation, or any additional fees** are the sole responsibility of the bidder.
- MODEE shall **not bear any financial responsibility** for such fees.

11. Testing Period

- A **10-day testing period** is required for each new connection before official activation to verify service quality.
- No charges will apply if the service is disconnected within this period due to unsatisfactory quality.

12. Service Sites

- For added sites, new subscriptions will follow the same **terms, conditions, and pricing**.
- Payments for canceled sites will **cease immediately** from the official cancellation request date.
- Relocating the service shall be added especially for the satellite service

13. Service Coverage Confirmation

- The bidder must clearly indicate in their **technical proposal** the extent of **service coverage across all regions of the Kingdom**.

14. Compliance with Regulations

- The bidder must comply with all **Telecommunications Regulatory Commission (TRC)** requirements and regulations related to internet services (**MPLS, 5G, satellite and ALL-Type VPN**).

15. Communication and Coordination

- The bidder must provide a **dedicated email, phone number, and/or communication channel** to be used by the **e-Government Operations Center / MODEE** for service requests (new subscriptions, cancellations, Transfer, or bandwidth upgrades).

16. Technical Support

- The bidder must provide **24/7 technical support, 365 days a year** for all government subscriptions and lines.
- Dedicated **contact details (phone and email)** must be included in the technical proposal to enable direct communication between government institutions and the provider's support team.

17. Dedicated Focal Point

- The bidder must assign a **dedicated contact person (liaison officer)** for this RFP who is **available 24/7** throughout the project implementation period.

18. Escalation Procedures

- The bidder must provide a **clear escalation matrix** with full contact details to ensure timely corrective actions and problem resolution when needed.

19. Incident Reporting

- In case of a service outage, once the issue is resolved, the bidder must submit a **detailed incident report** to MODEE and the affected government institution.
- The report must include the **root cause, corrective actions taken, and prevention measures**.

20. Usage Reporting

- The bidder must provide **monthly usage reports** to each government entity, either through:
 - **Regular reports**, or
 - An **online portal** accessible to the concerned MODEE team.
- Reports should clearly show the **amount of data consumed** per subscription.
- The provider shall provide the Ministry of Digital Economy and Entrepreneurship with a dashboard to enable tracking of line management activities. The technical details and implementation mechanism will be agreed upon at a later stage

5. Framework Agreement and Purchasing Mechanism

- The **framework agreement** will be established **based on the services provided by each participating company**. Each company is entitled to submit proposals for **all or any** of the following services: **MPLS, 5G, Satellite and all type VPN**.
- When the **Ministry of Digital Economy and Entrepreneurship (MODEE)** wishes to extend internet services to any of the sites or to **newly added sites**, the participating companies under the framework agreement will be requested to **submit detailed coverage information** for those sites, specifying the type of internet service (MPLS, 5G, Satellite or all type VPN) available.
- The **award of services** will be **partial for each internet type** (MPLS, 5G, Satellite and all type VPN). Accordingly, each service may be awarded to **one or more companies**, depending on the availability and level of coverage provided by each bidder.
In cases where multiple companies provide coverage for the same site, subscriptions will be **equitably distributed** according to the **“Purchasing Mechanism”** described in the Important Note section.
- The Ministry shall **not commit to any minimum number of subscriptions** under this framework. Service activation will be **based solely on actual needs** and in accordance with the RFP terms and conditions.

6. Important Notes

General Notes:

- The **prices** for all participating companies under the Open framework agreement will be **fixed and unified**.
The **Ministry of Digital Economy and Entrepreneurship (MODEE)** will determine the final approved prices after evaluating all submitted proposals.
Only the companies that **accept and agree** to the finalized prices will be **eligible to sign** and participate in the framework agreement.
- The companies shall **upgrade the connection from Microwave to Fiber** at **no additional cost** whenever Fiber connectivity becomes available.
- The **Ministry of Digital Economy and Entrepreneurship (MODEE)** will coordinate with the respective **government entities** to determine the exact site locations for the **MPLS service**, enabling the companies to define **pricing and availability** accordingly.
- The **MPLS contract** shall be established for a **specified duration**, to be determined and agreed upon by the ministry.

Purchasing Mechanism under the Framework Agreement

- When **MODEE** requires internet connectivity for any government site the **participating companies** will be requested to **provide updated coverage details** for those sites, specifying the availability of the three internet or connectivity services (MPLS, 5G, Satellite or all type VPN) or the specific service type required by the Ministry.
Site coordinates will be shared by MODEE for accurate coverage assessment.
- Based on the **coverage availability** and the **required service type**, MODEE will allocate and purchase internet services through the framework agreement in a manner that ensures **fair and balanced distribution** among the participating companies.
For example, 5G subscriptions will be distributed as evenly as possible among companies providing 4G services, and the same principle will apply to other services.
However, **minor variations** may occur depending on each company's **coverage capability** in the required areas.
- The Ministry will give **priority to the most advanced available technology** when selecting the type of service, based on actual site coverage.
- In cases where MODEE decides to **migrate from one service type to another** the existing subscriptions may be **terminated without any financial penalties**, except for the **cost of services consumed up to the disconnection request date**.

Price Review during the Agreement Period

- During the framework agreement's validity period, if there is a **significant decrease in market prices**,
MODEE reserves the right to **request updated financial proposals** from all companies participating in the agreement.
- MODEE will adopt the **lowest revised prices** among the submissions.
Once officially approved by the Ministry, these new prices will be **applied uniformly to all existing and new subscriptions** under the framework agreement.
- Companies that **accept the revised prices** will **remain active participants** in the framework agreement.
Any company that **does not accept the new pricing terms** will be **excluded from the agreement**, and all their **existing subscriptions** under the framework will be **terminated** accordingly.

Financial proposal:

- The bidders must provide the price of each service on each speed in monthly cost, except MPLS it will be provided based on direct purchase Order.
- Billing and payment will be based on the actual monthly active subscriptions. Companies The winning bidder(s) are required to submit detailed monthly invoices to the Ministry for processing and payment, based on a standardized template defined by the Ministry
- The award will be partial, covering specific services provided by the bidder, in accordance with Article (29) of the Government Procurement Law. Other bidders shall have the right to offer lower prices if they wish to provide the same service.
- The bidder shall not be obligated to provide the service in cases where coverage is unavailable at the specified site. The Ministry of Digital Economy and Entrepreneurship reserves the right to request official proof of this from the bidder.

Service Type	Speed / Bandwidth Options	Medium / Technology	Estimated Quantity (Links / Connections)
MPLS (L2/L3 Managed)	100 Mbps	Fiber / Microwave	Based on requests from government entities
	200 Mbps		
	300 Mbps		
	500 Mbps		
	1000 Mbps		
MPLS (L2/L3 Unmanaged)	100 Mbps		
	200 Mbps

Any other connectivity service required by MoDEE later during the duration of this framework agreement			

7. Service Availability and Penalties

Service Availability

The Internet service (MPLS, 5G, Satellite or all type VPN) shall be available **24 hours a day, 7 days a week** for all active connections.

If the winning bidder(s) need to temporarily disconnect any service for maintenance or other justified reasons, the bidder(s) **must coordinate and obtain prior approval** from the concerned government entity. Planned outages shall be scheduled and communicated in advance to minimize service disruption.

In case of **unplanned service interruptions or technical issues**, the winning bidder(s) shall respond and restore the service according to the following timeframes:

Severity Level	Response Time	Resolution Time
Severity 1 (Urgent) – Complete service outage	1 Hour	5 Hours
Severity 2 (Medium) – Service degradation (e.g., slow speed, intermittent issues)	2 Hours	24 Hours

Response and Resolution Times

Penalties

1. **Response Delay Penalty:**

If the winning bidder(s) exceed the specified response time without any acknowledgment or action, a **penalty of 2 JD** shall be applied **per incident per line**, in addition to the resolution delay penalties described below, until a response is received.

2. **Resolution Delay Penalty:**

If the winning bidder(s) fail to resolve the issue within the defined resolution time, a **penalty of 3 JD per hour** shall be applied **for each hour of delay**, for every reported incident per line, until the issue is fully resolved.

3. If the winning bidder(s) **delay the activation of new internet lines** beyond the timeframe specified, a penalty of **10%*(purchase order value/implementation period)** shall be applied **per day**

Additional Notes

- The service provider shall be fully responsible for **promptly replacing any faulty hardware** (including but not limited to modems, routers, and other related devices) **within a maximum of three (3) days** from the date of issue reporting.
Replacement shall be carried out **without imposing any additional cost** on the client.
- If the reported issue is **beyond the control** of the winning bidder(s) (e.g., national or international network failures), the bidder(s) shall provide **official proof and justification**, and in such cases, **no penalties shall be applied**.

8. Administrative Procedures and requirements

1. Response procedures

All inquiries with respect to this RFP are to be addressed to MODEE in writing by mail, e-mail or fax with the subject “ **Open FRAMEWORK AGREEMENT For Internet and connectivity Services**”. All Inquiries can only be addressed to [email@MODEE.gov.jo] by day dd/mm/yyyy. Responses will be sent in writing no later than day dd/mm/yyyy. Questions and answers will be shared with all Bidders’ primary contacts.

2. Response format

The response to this RFP is subject to the general rules applied for responding to government tenders. Bidders’ written response to the RFP must include:

Part I: Technical and Financial Proposal

The technical and financial proposals shall include the following:

- Comply with the technical requirement mentioned in the Scope of Project Section.
- The financial proposal must provide the monthly price for each service; this price must be lump sum for each service including any other cost excluding MPLS it will be by direct Order.

The pricing should show the proposed linkage between deliverables and payments. Financial proposal should include the Form of Bid (عرض المناقصة) attached in the Arabic Sample Agreement under ملحقات الاتفاقية duly filled; signed and stamped by the bidder.

The Financial proposal should be submitted in separation of the technical proposal. The financial offer should be inclusive of the General Sales Tax and all applicable fees and taxes.

- على الفريق الثاني ان يشمل سعره الضريبة العامة على المبيعات بنسبة (16 %) الا اذا كانت الشركة خاضعة للضريبة العامة على المبيعات بنسبة (0) % (بموجب كتاب رسمي من هيئة الاستثمار يرفق مع العرض المالي) ويتم عكس هذه النسبة على السعر المقدم من قبلها.

- في حال عدم توضيح الضريبة العامة على المبيعات على السعر المقدم من قبل الشركة يعتبر سعر الشركة شامل للضريبة العامة على المبيعات بنسبة 16 %.

3. Response submission

Bidders must submit their proposals to this RFP to Tender Department at the Ministry of Digital Economy and Entrepreneurship no later than 03:00 pm on 19/11/2025.

Ministry of digital economy and entrepreneurship (MODEE) Tender No: 58/eGovt/2025.

Tendering Department – 3rd floor

Ministry of digital economy and entrepreneurship (MODEE) 8th circle

P.O. Box 9903

Amman 11191 Jordan

Tel: 00 962 6 5805642

Fax: 00 962 6 5861059

Proposals should be in a well-sealed and wrapped envelope clearly marked, as: **Part I “Open FRAMEWORK AGREEMENT For Internet Services”– Technical Proposal and Financial Proposal**”. This part should contain 1 hard copy and 1 softcopy (flash memory) [in Microsoft Office 2010 or Office 2010 compatible formats].

Note: The flash memory should be enclosed in the relevant envelope. Late submissions will not be accepted nor considered and in case of discrepancy between the original hard copy and other hard copies and/or the soft copy of the proposal, the hard copy marked as original will prevail and will be considered the official copy. Proposals may be withdrawn or modified and resubmitted in writing any time before the submission date.

Regardless of method of delivery, MODEE must receive the proposals no later than 03:00 PM on 19/11/2025 (Amman Local Time). MODEE will not be responsible for premature opening of proposals not clearly labeled.

4. Response evaluation

The award will be made on a partial basis.

In accordance with Clause No. 29 of the Government Procurement Instructions for 2022, the Purchasing Committee will apply this clause to each individual service (and to each speed, where applicable) listed in the financial proposal table above. The award will be granted to the lowest compliant proposal only. Other bidders will be invited to negotiate and adjust their prices to match the lowest offered price in order to participate in the provision of this service.

For the MPLS service, the Purchasing Committee will conduct a technical evaluation of the proposals at this stage only. After the framework agreement is signed, MoDEE will invite the bidders included under this agreement to participate in mini-tenders, during which they will be requested to submit financial proposals based solely on MoDEE's specific requirements outlined in each mini-tender.

Bidders shall comply with all MODEE standard components provided in the "Important note".

"Compliance sheet" and "الشروط الخاصة", these standard components will control and govern scope implementation during the period of the framework agreement.

MODEE reserves the right not to select any offer. MODEE also assumes no responsibility for costs of bidders in preparing their submissions.

The technical and financial proposals will be opened in the same session and should be submitted in one envelope

5. Financial terms

Bidders should take into consideration the following general financial terms when preparing and submitting their proposals:

- All prices should be quoted in Jordanian Dinars inclusive of all expenses, governmental fees and taxes, including sales tax
- The type of contract will be a fixed lump sum price contract including costs of all licenses renewal and any additional requirements needed for the proper delivering of the project
- A clear breakdown (table format) of the price should be provided including price for all expenses.
- The bidder shall bear all costs associated with the preparation and submission of its proposal and MODEE will in no case be responsible or liable for these costs, regardless of the conduct or outcome of the proposal process.
- The bidder shall furnish detailed information listing all commissions and gratuities, if any, paid or to be paid to agents relating to this proposal and to contract execution if the bidder is awarded the contract. The information to be provided shall list the name and address of any agents, the amount and currency paid and the purpose of the commission or gratuity.
- The winning bidder(s) is required to submit a performance bond of 20,000 JD within 10 days as of the date of award notification letter
- The winning bidder(s) has to pay the fees of the RFP advertisement issued in the newspapers.
- MODEE is not bound to accept the lowest bid and will reserve the right to reject any bids without the obligation to give any explanation.
- Bidders must take into consideration that payments will be as specified in the tender documents and will be distributed upon the winning submission and acceptance of the scope of work and of the deliverables and milestones of the scope of work defined for the project by the first party.
- MODEE takes no responsibility for the costs of preparing any bids and will not reimburse any Bidder for the cost of preparing its bid whether winning or otherwise.

5. Legal terms

Bidders should take into consideration the following general legal terms when preparing and submitting their proposals:

- The bidders shall not submit alternative proposal. Alternative proposals will be returned unopened or unread. If the bidder submits more than one proposal and it is not obvious, on the sealed envelope(s), which is the alternative proposal, in lieu of returning the alternative proposal, the entire submission will be returned to the bidder and the bidder will be disqualified.
- The proposal shall be signed by the bidder or a person or persons duly authorized to bind the bidder to the contract. The latter authorization shall be indicated by duly-legalized power of attorney. All of the pages of the proposal, except un-amended printed literature, shall be initialed by the person or persons signing the proposal.
- Any interlineations, erasures or overwriting shall only be valid if they are initialed by the signatory (ies) to the proposal.
- The bid shall contain an acknowledgement of receipt of all Addenda to the RFP, the numbers of which must be filled in on the Form of Bid attached to the Arabic Sample Agreement
- MODEE requires that all parties to the contracting process observe the highest standard of ethics during the procurement and execution process. The Purchasing committee will reject a proposal for award if it determines that the Bidder has engaged in corrupt or fraudulent practices in competing for the contract in question.

Corrupt Practice means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution

Fraudulent Practice means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of MODEE, and includes collusive practice among Bidders (prior to or after proposal submission) designed to establish proposal prices at artificial non- competitive levels and to deprive MODEE of the benefits of free and open competition.

- No bidder shall contact MODEE, its employees or the Purchasing committee or the technical committee members on any matter relating to its proposal to the time the contract is awarded. Any effort by a bidder to influence MODEE, its employees, the Purchasing committee or the technical committee members in the purchasing committee's proposal evaluation, proposal comparison, or contract award decision will result in rejection of the bidder's proposal and forfeiture of the proposal security
- The remuneration of the Winning bidder(s) stated in the Decision of Award of the bid shall constitute the Winning bidder(s) sole remuneration in connection with this Project and/or the Services, and the Winning bidder(s) shall not accept for their own benefit any trade commission, discount, or similar payment in connection with activities pursuant to this Contract or to the Services or in the discharge of their obligations under the Contract, and the Winning bidder(s) shall use their best efforts to ensure that the Personnel, any Sub-contractors, and agents of either of them similarly shall not receive any such additional remuneration.
- A business registration certificate should be provided with the proposal
- The laws and regulations of The Hashemite Kingdom of Jordan shall apply to awarded contracts.
- MODEE takes no responsibility for the costs of preparing any bids and will not reimburse any bidder for the cost of preparing its bid whether winning or otherwise.
- Bidders must review the Sample Arabic Contract Agreement provided with this RFP and that will be the Contract to be signed with the winning bidder(s) . Provisions in this Sample Arabic Contract Agreement are not subject to any changes; except as may be amended by MODEE before tender submission; such amendments are to be issued as an addenda.
- Proposals shall remain valid for period of (90) days from the closing date for the receipt of proposals as established by the Purchasing committee.
- The Purchasing committee may solicit the bidders' consent to an extension of the proposal validity period. The request and responses thereto shall be made in writing or by fax. If a bidder agrees to prolong the period of validity, the proposal security shall also be suitably extended. A bidder may refuse the request without forfeiting its proposal security; however, in its discretion, the Purchasing committee may cease further review and consideration of such bidder's proposal. A bidder granting the request will not be required nor permitted to modify its proposal, except as provided in this RFP.
- MODEE reserves the right to accept, annul or cancel the bidding process and reject all proposals at any time without any liability to the bidders or any other party and/withdraw this tender without providing reasons for such action and with no legal or financial implications to MODEE.

- MODEE reserves the right to disregard any bid which is not submitted in writing by the closing date of the tender. An electronic version of the technical proposal will only be accepted if a written version has also been submitted by the closing date.
- MODEE reserves the right to disregard any bid which does not contain the required number of proposal copies as specified in this RFP. In case of discrepancies between the original hardcopy, the other copies and/or the softcopy of the proposals, the original hardcopy will prevail and will be considered the official copy.
- MODEE reserves the right to enforce penalties on the winning bidder(s) in case of any delay in delivery defined in accordance with the terms set in the sample Arabic contract. The value of such penalties will be determined in the Sample Arabic contract for each day of unjustifiable delay.
- Bidders may not object to the technical or financial evaluation criteria set forth for this tender.
- The winning bidder(s) will be expected to provide a single point of contact to which all issues can be escalated. MODEE will provide a similar point of contact.
- MODEE is entitled to meet (in person or via telephone) each member of the consulting team prior to any work, taking place. Where project staff is not felt to be suitable, either before starting or during the execution of the contract, MODEE reserves the right to request an alternative staff at no extra cost to MODEE.
- Each bidder will be responsible for providing his own equipment, office space, secretarial and other resources, insurance, medical provisions, visas and travel arrangements. MODEE will take no responsibility for any non-Government of Jordan resources either within Jordan or during travel to/from Jordan.
- Any source code, licenses, documentation, hardware, and software procured or developed under “**Open FRAMEWORK AGREEMENT For Internet Services**” the property of MODEE upon conclusion of “**Open FRAMEWORK AGREEMENT For Internet Services**”. Written consent of MODEE must be obtained before sharing any part of this information as reference or otherwise.

- Bidders are responsible for the accuracy of information submitted in their proposals. MODEE reserves the right to request original copies of any documents submitted for review and authentication prior to awarding the tender.
- The bidder may modify or withdraw its proposal after submission, provided that written notice of the modification or withdrawal is received by the purchasing committee prior to the deadline prescribed for proposal submission. Withdrawal of a proposal after the deadline prescribed for proposal submission or during proposal validity as set in the tender documents will result in the bidder's forfeiture of all of its proposal security (5,000 JD).
- A bidder wishing to withdraw its proposal shall notify the Purchasing committee in writing prior to the deadline prescribed for proposal submission. A withdrawal notice may also sent by fax, but it must be followed by a signed confirmation copy, postmarked no later than the deadline for submission of proposals.
- The notice of withdrawal shall be addressed to the Purchasing committee the address in RFP, and bear the contract name "**Open FRAMEWORK AGREEMENT For Internet & Connectivity Services**" and the words "Withdrawal Notice".
- Proposal withdrawal notices received after the proposal submission deadline will be ignored, and the submitted proposal will be deemed to be a validly submitted proposal.
- No proposal may be withdrawn in the interval between the proposal submission deadline and the expiration of the proposal validity period. Withdrawal of a proposal during this interval may result in forfeiture of the bidder's proposal security.
- The Bidder accepts to comply with all provisions, whether explicitly stated in this RFP or otherwise, stipulated in the Governmental Procurement By-Law No8 of 2022 and its Instructions, and any other provisions stated in the Standard Contracting sample Arabic Contract Agreement annexed to this RFP including general and special conditions, issued pursuant to said Unified Procurement By-Law No8 of 2022 and its Instructions
- The winning bidder(s) shall perform the Services and carry out their obligations with all due diligence, efficiency, and economy, in accordance with the highest generally accepted professional techniques and practices, and shall observe sound management practices, and employ appropriate advanced technology and safe methods. The Winning bidder(s) shall always act, in respect of any matter relating to this Contract or to the Services, as faithful advisers to MODEE, and shall at all times support and safeguard MODEE's legitimate interests in any dealings with Sub-contractors or third parties.

- If there is any inconsistency between the provisions set forth in the Sample Arabic Contract Agreement attached hereto or this RFP and the proposal of Bidder; the Sample Arabic Contract Agreement and /or the RFP shall prevail.
 - MODEE reserves the right to furnish all materials presented by the winning bidder(s) at any stage of the project, such as reports, analyses or any other materials, in whole or part, to any person. This shall include publishing such materials in the press, for the purposes of informing, promotion, advertisement and/or influencing any third party, including the investment community. MODEE shall have a perpetual, irrevocable, non-transferable, paid-up right and license to use and copy such materials mentioned above and prepare derivative works based on them.
 - **Amendments or reservations on any of the Tender Documents:** Bidders are not allowed to amend or make any reservations on any of the Tender Documents or the Arabic Sample contract agreement attached hereto. In case any bidder does not abide by this statement, his proposal will be rejected for being none-responsive to this RFP. If during the implementation of this project; it is found that the winning bidder(s) has included in his proposal any amendments, reservations on any of the tender documents or the Contract; then such amendments or reservations shall not be considered and the items in the tender documents and the Contract shall prevail and shall be executed without additional cost to MODEE and the winning bidder(s) shall not be entitled to claim for any additional expenses or take any other legal procedures.
 - Nothing contained herein shall be construed as establishing a relation of principal and agent as between MODEE and the Winning bidder(s) . The Winning bidder(s) has complete charge of Personnel and Sub-contractors, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.
 - The Winning bidder(s) , their Sub-contractors, and the Personnel of either of them shall not, either during the term or after the expiration of the Contract, disclose any proprietary or confidential information relating to the Project, the Services, the Contract, or MODEE's business or operations without the prior written consent of MODEE. The Winning bidder(s) shall sign a Non-Disclosure Agreement with MODEE as per the standard form adopted by MODEE. A confidentiality undertaking is included.
- Sample Arabic Contract Agreement Approval:

Bidders must review the Sample Arabic Contract Agreement version provided with the RFP, which shall be binding and shall be signed with winning bidder(s).

Bidders must fill out, stamp and duly sign the Form of Bid (نموذج عرض المناقصة) attached to the Arabic Sample Agreement under (2) ملحق رقم and enclose it in their financial proposals.

Proposals that do not include these signed forms are subject to rejection as being none responsive.

- **PROHIBITION OF CONFLICTING ACTIVITIES**

Neither the Winning bidder(s) nor their Sub-contractors nor their personnel shall engage, either directly or indirectly, in any of the following activities:

- During the term of the Contract, any business or professional activities in Jordan or abroad which would conflict with the activities assigned to them under this bid; or
- After the termination of this Project, such other activities as may be specified in the Contract.

- **INTELLECTUAL PROPERTY RIGHTS PROVISIONS**

- Intellectual Property for the purpose of this provision shall mean all copyright and neighboring rights, all rights in relation to inventions (including patent rights), plant varieties, registered and unregistered trademarks (including service marks), registered designs, Confidential Information (including trade secrets and know how) and circuit layouts, and all other rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields.
- Contract Material for the purpose of this provision shall mean all material (includes documents, equipment, software, goods, information and data stored by any means):
 - a) Brought into existence for the purpose of performing the Services;
 - b) incorporated in, supplied or required to be supplied along with the Material referred to in paragraph (a); or
 - c) Copied or derived from Material referred to in paragraphs (a) or (b);
- Intellectual Property in all Contract Material vests or will vest in MODEE. This shall not affect the ownership of Intellectual Property in any material owned by the Winning bidder(s) , or a Sub-contractor, existing at the effective date of the Contract. However, the Winning bidder(s) grants to MODEE, or shall procure from a Sub-contractor, on behalf of MODEE, a permanent, irrevocable, royalty-free, worldwide, non-exclusive license (including a right of sub-license) to use, reproduce, adapt and exploit such material as specified in the Contract and all relevant documents.
- If requested by MODEE to do so, the Winning bidder(s) shall bring into existence, sign, execute or otherwise deal with any document that may be necessary or desirable to give effect to these provisions.
- The Winning bidder(s) shall at all times indemnify and hold harmless MODEE, its officers, employees and agents from and against any loss (including legal costs and expenses on a solicitor/own client basis) or liability incurred from any claim, suit, demand, action or proceeding by any person in respect of any infringement of Intellectual Property by the Winning bidder(s) , its officers, employees, agents or Sub-contractors in connection with the performance of the Services or the use by MODEE of the Contract Material. This indemnity shall survive the expiration or termination of the Contract.

- The Winning bidder(s) not to benefit from commissions discounts, etc. The remuneration of the Winning bidder(s) stated in the Decision of Award of the bid shall constitute the Winning bidder(s) sole remuneration in connection with this Project and/or the Services, and the Winning bidder(s) shall not accept for their own benefit any trade commission, discount, or similar payment in connection with activities pursuant to this Contract or to the Services or in the discharge of their obligations under the Contract, and the Winning bidder(s) shall use their best efforts to ensure that the Personnel, any Sub-contractors, and agents of either of them similarly shall not receive any such additional remuneration.

- THIRD PARTY INDEMNITY

Unless specified to the contrary in the Contract, the Winning bidder(s) will indemnify MODEE, including its officers, employees and agents against a loss or liability that has been reasonably incurred by MODEE as the result of a claim made by a third party:

- Where that loss or liability was caused or contributed to by an unlawful, negligent or willfully wrong act or omission by the Winning bidder(s) , its Personnel, or sub-contractors; or
- Where and to the extent that loss or liability relates to personal injury, death or property damage.

- LIABILITY

- The liability of either party for breach of the Contract or for any other statutory cause of action arising out of the operation of the Contract will be determined under the relevant law in Hashemite Kingdom of Jordan as at present in force. This liability will survive the termination or expiry of the Contract. Winning bidder(s) 's total liability relating to contract shall in no event exceed the fees Winning bidder(s) receives hereunder, such limitation shall not apply in the following cases (in addition to the case of willful breach of the contract):
 - gross negligence or willful misconduct on the part of the Consultants or on the part of any person or firm acting on behalf of the Consultants in carrying out the Services, an indemnity in respect of third party claims for damage to third parties caused by the

Consultants or any person or firm acting on behalf of the Consultants in carrying out the Services, infringement of Intellectual Property Rights

CONFLICT OF INTEREST

- The Winning bidder(s) warrants that to the best of its knowledge after making diligent inquiry, at the date of signing the Contract no conflict of interest exists or is likely to arise in the performance of its obligations under the Contract by itself or by its employees and that based upon reasonable inquiry it has no reason to believe that any sub-contractor has such a conflict.
- If during the course of the Contract a conflict or risk of conflict of interest arises, the Winning bidder(s) undertakes to notify in writing MODEE immediately that conflict or risk of conflict becomes known.
- The Winning bidder(s) shall not, and shall use their best endeavors to ensure that any employee, agent or sub-contractor shall not, during the course of the Contract, engage in any activity or obtain any interest likely to conflict with, or restrict the fair and independent performance of obligations under the Contract and shall immediately disclose to MODEE such activity or interest.
- If the Winning bidder(s) fails to notify MODEE or is unable or unwilling to resolve or deal with the conflict as required, MODEE may terminate this Contract in accordance with the provisions of termination set forth in the Contract.

1.2. Secrecy and security

The Winning bidder(s) shall comply and shall ensure that any sub-contractor complies, so far as compliance is required, with the secrecy and security requirements of MODEE, or notified by MODEE to the Winning bidder(s) from time to time.

1.3. Document property

All plans, drawings, specifications, designs, reports, and other documents and software submitted by the Winning bidder(s) in accordance with the Contract shall become and remain the property of MODEE, and the Winning bidder(s) shall, not later than upon termination or expiration of the Contract, deliver all such documents and software to MODEE, together with a detailed inventory thereof. Restrictions about the future use of these documents, if any, shall be specified in the Special Conditions of the Contract.

1.4. Removal and replacement of personnel

- Except as MODEE may otherwise agree, no changes shall be made in the key Personnel. If, for any reason beyond the reasonable control of the Winning bidder(s), it becomes necessary to replace any of the key Personnel, the Winning bidder(s) shall provide as a replacement a person of equivalent or better qualifications and upon MODEE approval.
- If MODEE finds that any of the Personnel have (i) committed serious misconduct or have been charged with having committed a criminal action, or (ii) have reasonable cause to be dissatisfied with the performance of any of the Personnel, then the Winning bidder(s) shall, at MODEE's written request specifying the grounds thereof, provide as a replacement a person with qualifications and experience acceptable to MODEE.

1.5. Other project related terms

MODEE reserves the right to conduct a technical audit on the project either by MODEE resources or by third party.
